Anwar Colored Cement Sheet

Product description

THICKNESS

4 mm

CONSTRUCTION

6-layered

AVAILABLE SIZES

2, 3, 4, 5, 6, 7, 8, 9, 10 RFT

COLOURS

Red Blue Green

Same 6-layered construction and advantages as the natural grey sheet, with a factory-applied colour finish for homes and commercial buildings.

APPLICATIONS

One sheet, three solutions

Residential home

Main roof, veranda, kitchen and store sheds, extensions.

- Up to 12°C cooler rooms
- Quiet in monsoon rain
- Colour choice

Animal husbandry

Dairy and cattle sheds, poultry houses, goat sheds, feed stores.

- Lower heat stress
- No condensation drip
- Ammonia resistant

Industrial building

Warehouses, factories, rice mills, markets, schools and mosques.

- Fire resistance to 1200°C
- Chemical resistant
- Bulk supply

Installation guidelines

ITEM	RECOMMENDATION
Minimum roof slope	15° for proper drainage
Side overlap	One corrugation
End overlap	150–200 mm
Fixing	On the crest of the corrugation with hook bolts and sealing washers
Ridge	Anwar ridge panel; leave a ventilation gap for animal sheds
Installer	Trained installer from your nearest Anwar dealer
